

Welcome to The National College

The
National
College®

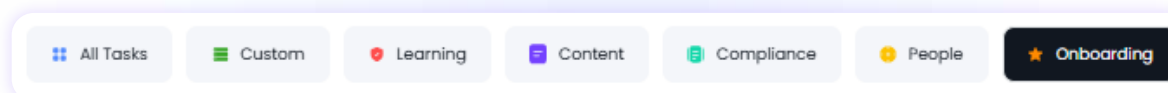

Our onboarding process is designed to help you get up and running as quickly and efficiently as possible, ensuring you have access to all the tools, resources, and support you need from the outset.

Once your order has been confirmed, you will receive a welcome email containing access to the platform, along with guidance on the next steps in your implementation journey.

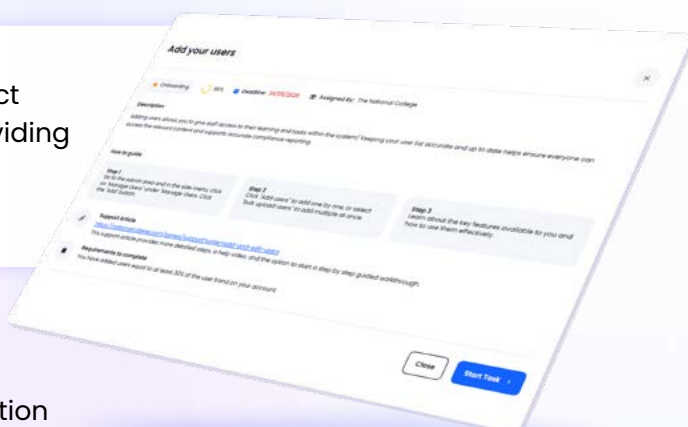

Within the portal, you will find a structured task list designed to guide you through the setup process. These tasks are tailored to help you maximise the value of your subscription and ensure a smooth transition onto the platform.

Your onboarding activities can be found within the Onboarding tab of the portal.

Each task includes clear instructions and direct links to relevant knowledge base articles, providing step-by-step guidance to support successful completion.

By following the onboarding journey, you will be able to configure your platform effectively and begin realising the benefits of your subscription with confidence.

Most customers complete onboarding independently using our guided onboarding journey, with support available whenever needed.
